Hi Jordyn,

Thanks for giving me your business card.

Thanks again for providing me with the AT&T Lifeline Customer Service number. As I mentioned to you, at the present time I do not own a communication device, however I do own and use a bipedal equipment to get to a retail location.

You have not provided me with the business card for the Regional or District Manager. I am unable to follow up with your manager on this matter. Your contact information is attached with this email.

Please forward it to your Manager and have the manager contact me, at their convenience.

Thanks,
Rakesh.

rakeshbingk@gmail.com

I use smart apps (Skype, Zoom, Teams, git...) for my communications (instant message, audio, video, meeting, conference, files...)
